Oct 31, 2019 This document describes the corrections to the following installations and upgrades: Jan 11, 2016 *PDF Available at *Post Office. Go to the image below and open the page.Q: Vue.js 2 Filtering data Good afternoon. I have a simple table with data: data: { students: [{ name: 'John', age: 20 }, { name: 'Mary', age: 30 }, { name: 'Paul', age: 40 }, { name: 'Tom', age: 50 },], } I need filter the list and only display the data that have names that begin with J. I will use the "v-if" filter, but I am looking for a JavaScript solution. Thank you! A: You can write your filter method as below, data: { students: [{ name: 'John', age: 20 }, { name: 'Mary', age: 30 }, { name: '1678ea919e
