Pair of Great Yarmouth women given new starts in life after being named top dog winners in an appearance on The X Factor Two sisters, aged just 11 and nine, received their big break yesterday in front of millions of viewers as they were crowned winners of The X Factor. Just two months ago one of the duo, Aisha Morris, was too young to enter one of the music competitions. But thanks to the show, she has achieved her life long dream of being able to perform at the Royal Albert Hall. The pair - Aisha, who comes from Great Yarmouth and is aged 11, and her sister Zanae who is just nine years old - were named the winners of the nation's number one music competition on Saturday night after receiving glowing praise from the judging panel. Simon Cowell praised the "bravery and intelligence" of the pair and said their win was down to their vocal abilities, adding: "I'm honestly a bit jealous." Speaking in the X Factor's green room afterwards, the teen who rose to fame as "the little girl", talked candidly about the pressure on her as well as her determination to succeed. Aisha said she was "so happy" and "relieved". She said: "It's an incredible feeling. To see everyone on the TV and realise that everyone is looking at me is just amazing. "I don't think it will ever sink in that I am now the big one, I'm just going to keep on going." The pair will go forward to the live shows and perform in front of the likes of the Queen, the Spice Girls and Kylie Minogue. They will also perform at the live shows of America's Got Talent. Aisha's father Les, 44, who is a carpenter, said: "It's a dream come true for us. Aisha is my little girl and she just took to it naturally. "She has been able to do what she has done because of her focus and her determination." Les, who lives with the pair and their mother in Ryde Street, would not be drawn on whether the pair were going to look for a formal education. He said: "We will just keep going with the show. We will let them decide what they want to 82157476af
